# SHAPING THE FUTURE

*Trends and Insights for Tomorrow*

[www.sisbhopal.edu.in](http://www.sisbhopal.edu.in)

Change in today's world is rising at an accelerated pace, and we need to pause and reflect it on the entire education system. I firmly believe that students must be taught 'How to Think, Not What to Think.'

This reminds me of the great words of wisdom by Aristotle, "Educating the mind without educating the heart is no education at all." We need to prepare these young minds to face, tackle, reconcile and finally excel in whatever they do in life. Our children march ahead with the ethos of moral and ethical learning principles – Knowledge, Imagination, Creation and Innovation.

Sage International School offers its students the very best in terms of infrastructure and resources. However, we will never rest on the laurels of the past as excellence remains a continuous process.
