Subject: Clarification and undertaking of queries raised by CBSE for no. of sections and fire safety and building safety.

Respected Sir/Madam,
Greetings of the day!
Response to the queries raised by CBSE.

1. As it is mention in the land documents school has 6580 sq. m (0.658 hectare) land and as per the Appendix-V 6580 sq. m land if school has, that school can run only 38 sections. As per the laws school is going to accommodate only 38 sections up to class XII and in classes XI and XII in three different sections (PCM/PCB+ Commerce+ Humanities) are going to take place. Undertaking of required sections up to - XII.

Details are given below:-

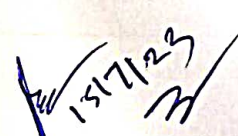

Class	Section	No. students	Class	Section	No. students
Nursery	01	40	Class- VI	03	120
KG-I	02	80	Class- VII	03	120
KG-II	02	80	Class- VIII	03	120
Class - I	02	80	Class- IX	03	120
Class - II	02	80	Class- X	03	120
Class- III	02	80	Class- XI	03	120
Class- IV	03	120	Class- XII	03	120
Class-V	03	120			
Total Sections	38				

2. The school building is one which is named separately as A, B & C Block just for student's convenience of understanding else the complete building is interconnected. Since the building is totally interconnected so the requirement for CWSN washrooms with ramp and fire safety and building safety is fully met at all floors of the school.
3. We have uploaded the videos and required documents after virtual inspection of school building related to CWSN washrooms boys and girls on each floor and land documents, fire safety and building safety.
4. Water testing report is also attached with the documents.

Thanking you.

Yours Sincerely

Principal
